MUSIC

Ivo Kahánek

A piano performance by one of the most renowned pianists of his generation. Japan is a country where Czech music and Czech musicians hold a special position and respect. The connection between our otherwise very different cultures through the music of Czech composers enables dialogue and understanding where conventional forms of communication fall short. We believe that it is important to maintain and develop this connection.

MUSIC

Duo Jamník

A musical performance featuring a repertoire for solo violoncello and string duo, tailored to the specific program and circumstances. The artists are violoncellist Tomáš Jamník, an internationally recognized performer and winner of the Prague Spring competition, and the string duo Jamník-Jamníková.

CROSS-GENRE ART

My Homeland/ Dennis R. Davis  
& Maki Namakawa

Four-hand piano performance by Dennis Russell Davies and Maki Namekawa. Just as Smetana in his music and descriptions evokes memories of long-gone times, revives myths, and idealizes history from the perspective of his era, these AI-based visualizations represent another iterative loop of continuous transformation and interpretation of our history and cultural identities. In the piano version, many passages particularly take on a nostalgic, fragile character, as the confident national pride of the 19th century gives way to uncertainty about where we stand and how we wish to define ourselves as a society and individuals in the present day.

PERFORMING ARTS

42+PEOPLE: WHERE  
& WHY THINGS GO WRONG

The projects 42+PEOPLE: WHERE and WHY THINGS GO WRONG bring together two distinct yet complementary creative forces of the dance scene: the 420PEOPLE company and its 42+PEOPLE concept, which aims to explore the dynamics and contrasts between different stages of human life and experiences. Through movement and dance, this unique project connects themes of chaos, change, and the search for meaning in the modern world.

The choreographies will be created by Japanese dancer and choreographer Megumi Nakamura and the artistic director of the ballet of the National Theatre Brno and choreographer Mário Radačovský. Their joint project directly reflects Czech-Japanese collaboration, facilitates the exchange of experiences, and bridges the two cultural worlds.
